Wines By the Glass | Coravin

Coravin is a way to get wine out of your bottle – without uncorking it. The mechanism is a medical-grade needle that pierces a cork, pumps wine – a taste, a glass or more – out of a bottle, and replaces the space with the inert, heavy gas argon. When the needle is withdrawn, the cork's natural elasticity closes up the hole. The wine is still sealed with its original cork. Until the next time you want a taste.
